

British Sleep Society:

Professor Adrian Williams FRCP AASM

. on behalf of the BSS President

Professor Mary Morrell PhD

British Sleep Society

- Current member number exceeds 500
 - Trend is increasing
 - Approx. 20 % of medical professionals are members in the society. Early career researchers are encouraged to participate as are many other professions such as dentists, psychologists and technologists.
- Our major activities in the last year included the most successful Society meeting held in Newcastle with 300 attendees, and a Sleep Apnea awareness campaign spearheaded by the British Lung Foundation.
- The challenge we meet this year is to get Sleep Medicine recognised as a specialty with credentialing by the Royal College of Physicians of London
