

Cognitive Behaviour Therapy-Insomnia Course (Basic)

Speaker: Professor Jason Ellis

22nd – 23rd February 2020

The aim of this course is to provide the relevant information to identify, assess, and diagnose cases of insomnia, and with peer supervision, manage cases using the principles of Cognitive Behaviour Therapy for Insomnia (CBT-I). It is open to applicants from all countries. Competence in understanding spoken English is required.

This course is suitable for all health professionals.

This course will cover:

How to define Insomnia Disorder using currently published international guidelines

How to identify the differences between the various types and subtypes of Insomnia Disorder

How to assess other intrinsic and extrinsic disorders masking insomnia

Identifying who is and is not a suitable candidate for CBT-I

Practical, hands-on experience of conducting CBT-I under peer supervision, including case studies

How to apply a variety of other therapies in the Insomnia Disorder setting

The Advanced Practice of CBT-I course will be run annually 6 months after the basic course to allow for treatment of patients inbetween courses.
